FARMERS HOLDING THEIR GRAIN FOR HIGHER PRICES

Special to The Tribune.

AMERICAN FORK, Oct. 6.—The threshing was about completed here today. This has been one of the most successful seasons for cereals for some years and, in most part, clean, plump grain. The prevailing prices are 80 cents per bushel for wheat, \$1.25 per hundred for oats, and little marketed at these figures. The farmers are holding for higher prices.

TO WEAK WOMEN OF SALT LAKE CITY AND VI-

We Make the Following Proposition.

There are hundreds of women in this

There are hundreds of women in this vicinity who are dragging themselves through life in pain and misers, without vitality, strength or health, said Mr. Druehl of Druehl & Franken. They get no happiness out of life, and are just in a condition to be attacked by almost any disease. They need a vitality-making and strength-creating tonic.

Now, at our expense, we want to ask every such woman to try our cod liver oil preparation, vinol, which contains in a highly concentrated form all of the medicinal elements of cod liver oil, but pooling or grouse. It is delicious to take, creates a healthy appetite, makes pure rich red blood and gives strength and vigor to every organ of the body better than any medicine we have ever sold in our store, and when a woman is in this condition it makes life worth living. When we say at our expense, we mean that if the medicine to how here we want and eav for does not shift at this mine. At noon tomorrow all of the men from foreman down will be paid off. This means the throwing out of employment of about 20 men, and canour expense, we mean that if the medi-cine you buy from us and pay for does no benefit you-we will refund every cent c it cheerfully, and thus you try it at ou

expense.

Mrs. Mary A. Woodard of Indianapolis
Ind. writes. I think Vinol is the bear
remedy in the world for a weak, tired
worn-out system. I was just in that condown had no information to give.
Various theories are aftest here in the
camp, but there is no doubt that the real
reason for the shut-down is known only reason for the shut-down is known only to the management.

The first big strike in the mine was made about three years ago. For some time after that the stock sold for a dollar a share. After nine months the lawsuit with the Daly West was begun. This ended in the consolidation of the two properties. Virtually it was the absorption of the Quincy by the Daly West. Since that time, while the Quincy has been operated separately, it has been under the direct management of the Daly West officers. to try Vinol on our guarantee. Druehl of Franken, Druggists. Work has begun upon the foundation for the addition to the Daiy West mill. When this is completed it will mean the addition of a new Huntington and six new tables. This will add greatly to the capacity of the mill, and with the other improvements, such as the new track and the new hoist, will greatly facilitate the handling of ore at this place. The City Council met in regular monthly session lest evening with all members present. The Recorder's report showed the receipts of the past month to have been 1975 and the disbursements \$2183.12, leaving a balance on hand of \$391.55. The Treasurer's books showed substantially the same. The monthly payroll, amounting to \$1926 was ordered and bills to the amount of \$110.18 were paid. In order to meet these bills and to pay others, arrangements were made for an overdraft of \$2500 at the First National bank. This is deemed sufficient to meet all current expenses until the taxes for the present year shall come in.

The City Justice reported \$2 cases before him during the month, and the total amount of fines collected as \$400. The sexton reported six deaths, four adults and two children. A report from the County Clerk was read, showing the assessed value of corporations within the city limits to be \$46.113. Eight Ilquor licenses were granted.

Councilman Johnson of the Committee on Streets. Bridges and Alleys reported that a ditch had been dug and mud holes filled back of the ball grounds and that the X. It was then decided that the City should put in a flume to counsect Fourteenth street with Silver Creek. This is an important improvement that has been long needed, since by this means the north end of town will be properly drained.

Wheeling, W. Va., May 28, 1903. Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and re-sorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. years have elapsed since what I have described occurred. Having been so signally benefitted by its use I can heartily recommend it as the one great blood purifier.
